

# Exciting new collaboration in the Property Claims Market.

Home Repair Network Limited (HRNL) and Service Certainty imageproof Ltd have announced a new strategic initiative to help speed up the validation and settlement of low complexity property damage claims. This new collaboration will see HRNL use Service Certainty's suite of services to aid the capture of damage information from Customers homes.

**Ian Hogarth, MD,** says

"HRNL are confident that by using local Contractors and Surveyors, combined with the use of the latest digital technology, the time taken to complete claims can be significantly reduced thereby improving customer service. Our collaboration with Service Certainty compliments our existing operating model to add further speed and accuracy to our Validation services. We look forward to utilising their market leading image capture solutions, both from customers directly and their network of professionals".

Home Repair Network Ltd are a rapidly expanding business disrupting the supply chain solutions for insurance claims in the Property Market, challenging traditional models to remove cost and unnecessary delays to what should be a straightforward process for validating and repairing a property damage claim.

Service Certainty imageproof Ltd is an agile technology business offering a suite of on demand image, video and workforce solutions with proven experience & scale.

"Home Repair Network Ltd is a great fit, they share our disruptive thinking and challenge traditional processes, creating alternative ways of processing insurance claims, streamlining processes and harnessing the power of quality media taken at the start of a claim. Our suite of products and services in collaboration with a forward-thinking partner is an exciting collaboration!"

**Paul Sell, Director of Service Certainty imageproof Ltd** added.

***Engaging, accurate and efficient innovation.***
